ENG 102 – English Composition II (3 hours)
- VII. Humanities (6 hours)

The Admissions Committee requires the following recommendation letters:

a). A composite evaluation prepared by the premedical committee of your undergraduate college.

**OR**

**If your college does not have such a committee or system for composing a composite evaluation**, you are required to submit three (3) letters of recommendation from faculty members who have taught you in the sciences **and** two (2) letters of recommendation from persons who have known and observed you on a personal basis.

b). If you are a graduate student enrolled in a degree granting program, you must submit a letter of evaluation, written by your major advisor or department chair, containing the anticipated date for fulfilling your degree requirements. All work must be completed before entering medical school.

c). If you are currently employed full-time, we encourage (but do not require) you to submit a letter of recommendation from your employer in addition to the above required letters.

**ALL LETTERS SHOULD BE SUBMITTED TO AMCAS**
